

Below you can find my current transcript of records of the Master of Logic at the ILLC Amsterdam. As the academic year is ongoing, the Master of Logic is not yet complete and will be by the end of August with the discussion of my thesis (or potentially before, if required by the program). The most updated version of the marks can be found here [Spreadsheet: MSc. Logic Marks](#). The current transcript of records only entails the registered marks which are those whose exams have already been corrected, the average computed, and inserted into the system. Since this process usually takes some time, most of the courses taken this semester do not yet appear here. The full list of courses I followed in the [first semester](#) and in the [second semester](#) of the MSc Logic can be found at the respective links.

The lowest mark is 1 and the highest is 10, though the highest two marks (from 8 to 10) are generally considered not on a linear scale or, in some cases, above 100%. Hence, the minimum average required to obtain honours is set at 8.0 (Section 5.2: [source](#)).

Updated on the 3rd of December:

Average: 8.5424

Total Amount of Credits: 120 (regularly: 2 years)

Time Spent on the Degree: 1 year (09.2024 - 08.2025)

Completed Credits: 83

Completion: 69%

**Credit system and marking**

A student's workload (both contact hours, and hours spent studying and preparing assignments) is measured in ECTS credits, whereby under Dutch law one credit represents 28 hours of work and 60 credits represents one year of full-time study.

The marking system has been the same for several decades: the scale is from 1 (very poor) to 10 (outstanding). The lowest pass mark is 6. The mark 9 is seldom awarded, and the highest pass mark 10 is extremely rare. Decimal values may be used (e.g. 7.8).
